How to Peel & Eat Crawfish

How to peel & eat crawfish

Step 1

Gently twist the head apart from the tail and set the head aside.

Step 2

Peel away 2 to 3 segments of shell from the tail to expose more meat.

Step 3

Pinch the bottom end of the tail while carefully pulling the meat out of the shell.

Step 4

For an extra mouthful of flavor, gently suck the seasoned juices out of the head, or insert a finger into the cavity and scoop out the golden "fat".
