REU PROGRAM in Chemical Engineering

Program:
May 22 – July 28, 2023

Applications due:
March 31, 2023

For questions and application instructions, please visit lsu.edu/eng/che/faculty-research/reu/ or email the REU Program at chereu@lsu.edu.

Would you like to . . .
• Learn how to translate an idea from the lab to industry?
• Discover new ways to market fundamental and applied research?
• Gain new mental health and stress management skills?
• Obtain training on how to effectively communicate research?
• Learn to better work in teams?
• Learn how to be an entrepreneur?
Participants are lodged in apartment-style university housing and paid a stipend for the summer.

Research Areas
- Nanostructured catalysis
- Computational surface chemistry
- Photocatalysis
- Catalytic conversion of syngas
- Biomedical engineering
- Lab-on-a-chip technology
- Advanced materials
- Catalytic conversion of biomass
- Electrocatalytic conversion

Training for the Whole REU Student
