

# LSU | Greek Life

Greek Life at LSU offers many opportunities for students to get involved in the community through leadership development and educational programs, philanthropic and service initiatives and we focus on supporting students in their college journey both inside and outside of the classroom. Greek Life serves as a home away from home for our members! We are excited to have so many students join the community this semester.

Students can join Greek Life through the Formal Recruitment, or the Membership Intake process each semester. Our three councils host events to get to know potential members and potential members may be invited to join a chapter! LSU Formal Recruitment for our Interfraternity Council (IFC) and Panhellenic Council (PHC) kicked off during welcome week. IFC wrapped up recruitment on August 25, welcoming over 800 members. After a long-awaited delay due to Hurricane Ida passing through Baton Rouge, formal recruitment ended on September 12th for PHC, in which over 1100 new members joined the community. The National Pan-Hellenic Council (NPHC) chapters are currently conducting their intake process and we are excited to welcome many more students to the community soon. As we wish them all good luck during this process, we also want to remind all parents and family members or supporters to reach out to our office with any questions. We all want our Tigers to reach their academic goals while enjoying all that LSU Greek Life has to offer!
