

Want to Get the Most Out of Your Healthcare Benefits?

Take Advantage of this **FREE** Program!

LSU First partners with eQHealth Solutions to provide Care Coordination services to its members. These services help ensure you are receiving the best quality healthcare by making certain your needs are met in an efficient and appropriate manner. Whether you have an acute or chronic medical condition, we are here to help.

With the Care Coordination Program, you have access to your own care coordinator while enrolled in the program. There is two-way communication between you and your coordinator. You can contact your coordinator during business hours, as well as they may call or visit while you are enrolled in the program.

Some of the benefits of this program include:

- Education and resources about your health condition(s)
- Learning about how you can better access your doctors, medications, and medical services you may need.
- Assistance with finding in-network doctors or community resources.
- Access to nurses in your community via phone or face-to-face to create personalized plan of care and work toward improving your quality of health.

Call your dedicated, personal care coordinator today to discuss your care coordination services provided to you through LSU First's partnership with eQHealth Solutions. **It is FREE (no cost to you) and a confidential program provided by your health plan.**
