I understand the above choice is binding and may not be changed unless written approval is obtained in advance from the Chemistry Department Advisor and the Dean.

_____ Student Signature/Date	_____ Chemistry Advisor Signature/Date	_____ College of Science Dean Signature/Date
---------------------------------	---	---

Guidelines:

1. An approved second discipline concentration consists of at least 15 semester hours of electives in one area outside the Dept. of Chemistry. Second discipline courses must be passed with a grade of "C" or better.
2. The courses should form a coherent, logical sequence. When possible, students should take the same courses required for a major in the same area. All courses should come from one department unless pursuing an interdisciplinary minor.
3. At least three courses must be numbered 3000 or above.
4. Selection of the concentration should be completed and approved by the dept. and Dean's office by the end of the sophomore year.
