_____ Student Signature/Date	_____ Math Dept. Chairman/Assoc. Chairman Signature/Date	_____ College of Science Dean's Office Signature/Date
------------------------------------	--	---

Guidelines:

1. An approved second discipline concentration consists of at least 21 semester hours outside the Dept. of Mathematics. Second discipline courses must be passed with a grade of "C-" or better.
2. **The courses should form a coherent, logical sequence in one department. When possible, students should take the same courses required for a major in the same area.**
3. At least 12 hours must be numbered 3000 or above with 6 of these hours at the 4000 level.
4. Selection of the concentration should be completed and approved by the Department of Mathematics and the College of Science Dean's Office prior to taking the concentration classes and by the end of the sophomore year.
